

The Red Circle
of Washington, DC
proudly presents
the Washington Metro Area Premiere

SHERLOCK HOLMES

starring
William Gillette

Before Benedict, before Jeremy, before Basil and before so many others, there was William Gillette. By the time he starred in this film a century ago, Gillette was well established as the world's foremost interpreter of Holmes onstage, winning praise even from Conan Doyle himself. The only film Gillette ever made was long considered lost, until a nitrate dupe negative of *Sherlock Holmes* was found last year at the Cinémathèque française. Our screening will feature the original score from the Paris premiere of the restored film.
